

Memorandum

TO: Dr. Franny Howes

FROM: Zak Rowland

DATE: May 13, 2019

SUBJECT: Progress Report

The purpose of my report on quantum computing is to provide the information required to understand what makes it so important, and why it is the future of computing.

I have currently completed a two-page draft of the first section which is the understanding of quantum computing. This section includes information about traditional computers and how they compare to their quantum counterparts, quantum mechanics and the qubit, and a discussion of Moore's Law.

Due to work, different assignments and labs, and other delays, I began significant work on May 7th. The schedule has been revised to account for this.

Action and Date	Assignment	Due Date
<ul style="list-style-type: none">• Began reading through and gathering research on May 7.• Finished researching and begin drafting a section of the report on May 7.• Finished section draft and begin progress report memo on May 12.• Finished and turned in draft and memo by May 13.	Progress report and section draft	May 13, 2019

Memorandum

<ul style="list-style-type: none">• Continue researching and begin drafting other body sections May 14.• Finish at least seven pages of the report and begin working on other sections of the report if time permits by May 19.	Formal report rough draft	May 19, 2019
<ul style="list-style-type: none">• Finish gathering research and begin editing body sections on May 20.• Finalize body sections and begin abstract and conclusion on May 27.• Finish abstract and conclusion and begin work on table of contents and works cited on May 30.• Finish table of contents and works cited then finalize the report by June 3.	Formal report	June 3, 2019
